

## THE PRODUCT

OKW SLIDE CONTROL KNOBS are ideal for the use of electro-mechanical components with slide resistors. Here they offer optimum adjustment options for the user and a particularly attractive appearance.

## YOUR ADVANTAGE

Easy to install – simple push-on fitting.

All versions available with markings.

Ideal for continuous fine tuning.

Different designs – practical, with a good grip.

According to knob type:

- Matt chromed
- Black, RAL 9005
